✉ bysvinedits@gmail.com

📍 Penang, Malaysia

Motivated Diploma in Information Technology graduate with hands-on experience in software, mobile, and web development. Proficient in HTML, CSS, JavaScript, Java, Flutter, React, MySQL, PHPMyAdmin, XAMPP, and Supabase, with experience building responsive websites, mobile applications using Android Studio and Flutter, and database driven solutions. Passionate about learning new technologies, solving technical challenges, and contributing to innovative software development projects.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Java, SQL, HTML, CSS
- **Web & Mobile Development:** React, React Native, Expo, Flutter, Responsive Design, Frontend Development
- **Backend & Database:** Firebase (Authentication, Cloud Firestore, Storage, FCM), Supabase, REST API Integration, Database Management
- **Developer Tools & Version Control:** Git, GitHub, Visual Studio Code, Android Studio, Postman, Version Control, Debugging
- **IT & Soft Skills:** Software Troubleshooting, Problem Solving, Technical Documentation, Teamwork, Communication, Agile, Software Testing.

EDUCATION

Politeknik Balik Pulau, Penang, Malaysia

2024-2027

Diploma in Information Technology (Software Development)

Relevant Coursework: Programming, Object-Oriented Programming, Database Management, Web Development, Mobile Application Development, Software Engineering, System Analysis and Design, Computer Networks, and Human-Computer Interaction (HCI).

SKILLS

- Problem Solving
 - Continuous Learning
 - Federal Contracting & Procurement
 - Database: MySQL, PHPMyAdmin, Supabase
 - Tools & Technologies: Visual Studio Code, Git, GitHub, Firebase
 - Programming Languages: Java, JavaScript, TypeScript, HTML, CSS
 - Mobile Development: Android Studio, React Native (Learning)
-

Portfolio: <https://my-portfolio-swart-chi-24.vercel.app/>

PRACTICAL EXPERIENCE

Web Development: Designed and developed responsive web applications using HTML, CSS, JavaScript, React, and modern web technologies. Created user-friendly interfaces and implemented interactive features for web solutions.

Mobile Development: Developed cross-platform mobile applications using Flutter and React Native. Experienced with Android Studio and Expo, while continuously learning advanced mobile development practices, UI design patterns, and application architecture.

Backend & Database: Worked with Firebase, Supabase, MySQL, PHPMyAdmin, and XAMPP for database management, authentication, data storage, and building database-driven applications.

Software Development & Tools: Used Visual Studio Code, Git, GitHub, and Claude Code to improve development workflow, debug technical issues, and enhance productivity. Experienced in testing and continuously learning new technologies.

PROJECTS

MyPulse360 – Smart Digital Patient Journey Management System (FYP)

Comprehensive patient management system supporting five roles (Patient, Doctor, Receptionist/Triage Nurse, Pharmacist, Administrator) with role-based access control and real-time collaboration features.

Technologies: Flutter, Dart, Firebase (Authentication, Cloud Firestore, Storage, FCM), Riverpod, Feature-First Clean Architecture

Key Contributions: Designed role-specific UI screens; Implemented authentication and authorization; Integrated real-time database synchronization; Built push notification system; Applied Clean Architecture patterns; Demonstrated adaptability through technology stack migrations

Food Calorie Tracker (Mobile & Web App)

Designed and developed a cross-platform food calorie tracking application that helps users monitor daily nutrition, set health goals, and build healthier eating habits through an intuitive and minimalist user experience.

Technologies: Flutter, Firebase, Cloud Firestore, Firebase Authentication, Git, GitHub

Key Contributions: Designed and developed responsive mobile and web interfaces; Implemented secure user authentication and cloud-based data storage; Built food logging, calorie tracking, daily nutrition summaries, and goal-setting features; Developed a clean, minimalist UI with intuitive navigation to enhance user engagement and usability.
